

Road Safety Walk

Today we went on a walk around the local area and talked about road safety and how to crossroads in a safe way we would

- Find a safe place to cross the road
- Look both ways left and right and all around
- Looking and listening for any cars, then we could cross the road safely

The children had some good ideas of why we need to crossroads safely and look all around,

- "we have to be careful, or we might get squashed"
- "there might be a tractor or truck coming"
- "if we run, we might fall"
